How to Choose the Right Size

To find the circumference of the pole, begin by wrapping a string or ribbon around the pole. Pull the string snug and place a mark on the string where it overlaps. Transfer the string onto a ruler or measuring tape to find out the circumference of the pole. Use the table below to find out which size pole pad is perfect for you! Any questions, please do not hesitate to call. **(1-877-327-0745)**
